WHAT IS PRELIMS XCEED

A structured mentorship built around how you study, not what to study.

Prelims Xceed is a structured, one-on-one mentorship program for the UPSC Civil Services Preliminary examination, built around how to approach the syllabus smart and effectively. In each online session a mentor helps you decide what to study, how to practise questions, how to analyse your mistakes, how to revise, and how to improve based on your own results. It is built on original UPSC PYQ: a diagnostic first session, then a subject worksheet before every sitting, followed by constructive, attempt-based feedback, and the program concludes with two full-length GS and CSAT tests. **It complements your self-study, standard resources and test series; it does not replace them.**

Coaching
Teaches the syllabus content to you, usually in a class.

→

Test series
Measures where you stand by giving you tests to attempt.

→

Mentorship
YOU ARE HERE

Helps you decide what to study, how to practise and revise, and how to fix mistakes, using your own evidence.

What you get
- A personalised diagnostic and a six-month plan built for you
- A PYQ worksheet before every session
- Live one-on-one strategy and feedback
- A target card after each session
- Two full-length tests, GS and CSAT

What you do between sessions
- Continue your own subject study and revision
- Solve the worksheet before the session
- Keep your target, error and test logs updated

What it is not
- Not syllabus lectures or a full teaching course
- Not a test series or a question bank
- Not a shortcut or a promise of any rank or score
- Not a substitute for daily self-study

Who Prelims Xceed is for

First and repeat aspirants
First-timers build the right system early; repeaters find and fix the exact gaps that held last year's score back.

Working aspirants
A fixed 45-minute online slot, twice every month, with everything shared in advance, so it fits around a job.

Anyone stuck on method
For trouble with consistency, revision, question selection or reading mock results, if you will do the work between sessions.

How the mentorship works

1

Diagnose · Know Your Weakness

The first session is a full diagnostic, meaning we read your attempt history, study hours, past errors and mock accuracy. From it you get a one-page profile, a locked resource list (one main source per subject, agreed with you) and your six-month plan. Everything that follows is shaped around this.

2

Prepare · Solve the worksheet in advance

Before every later session you receive a worksheet designed for that subject and built from original UPSC PYQ. You attempt it before the session, so the mentor works with your real answers. Bring the worksheet, your recent mock scores and any doubts.

3

Review · Attempt-based feedback

The session breaks down your worksheet question by question (PYQ deconstruction), marks the traps you fell for, reviews your resource choices and trims them where needed. The mentor never lectures the topic; every minute goes to strategy and method.

4

Act · Leave with a clear target plan

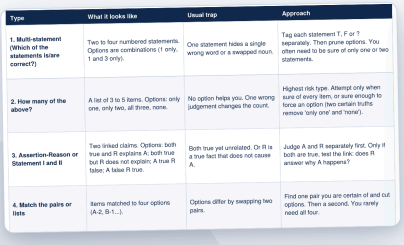

You close each session with a target plan to cover the next subject of your choice efficiently before the next session.

UPSC PRELIMS | GS PAPER I

Prelims Xceed Workbook

Read the question before you **answer** it.

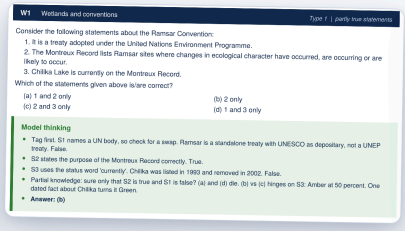

1 Know the question type

Type	What it looks like	Usual trap	Approach
1. Multi-statement (Which of the statements is/are correct?)	Two to four numbered statements. Options are combinations (1 only, 1 and 3 only).	One statement hides a single wrong word or a swapped noun.	Tag each statement T, F or ? separately. Then prune options. You often need to be sure of only one or two statements.
2. How many of the above?	A list of 3 to 5 items. Options: only one, only two, all three, none.	No option helps you. One wrong judgement changes the count.	Highest risk type. Attempt only when sure of every item, or sure enough to force an option (two certain truths, remove 'only one' and 'none').
3. Assertion-Reason or Statement I and II	Two linked claims. Options: both true and R explains A; both true but R does not explain; A true R false; A false R true.	Both true yet unrelated. Or R is a true fact that does not cause A.	Judge A and R separately first. Only if both are true, test the link: does R answer why A happens?
4. Match the pairs or lists	Items matched to four options (A-Z, B-1…).	Options differ by swapping two pairs.	Find one pair you are certain of and cut options. Then a second. You rarely need all four.

Nine patterns, each with its usual trap and a method to beat it.

2 See the thinking, not just the answer

W1 Wetlands and conventions — Type I | partly true statements

Consider the following statements about the Ramsar Convention:
1. It is a treaty adopted under the United Nations Environment Programme.
2. The Montreux Record lists Ramsar sites where changes in ecological character have occurred, are occurring or are likely to occur.
3. Chilika Lake is currently on the Montreux Record.

Which of the statements given above is/are correct?

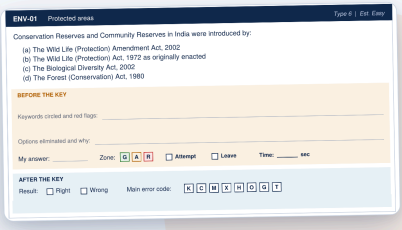

(a) 1 and 2 only (b) 2 only
(c) 2 and 3 only (d) 1 and 3 only

Model thinking

- Tag first. S1 names a UN body, so check for a swap. Ramsar is a standalone treaty with UNESCO as depositary, not a UNEP treaty. False.
- S2 states the purpose of the Montreux Record correctly. True.
- S3 uses the status word 'currently'. Chilika was listed in 1993 and removed in 2002. False.
- Partial knowledge: sure only that S2 is true and S1 is false? (a) and (d) die. (b) vs (c) hinges on S3: Amber at 50 percent. One dated fact about Chilika turns it Green.
- **Answer: (b)**

Worked examples show how to tag, prune and decide, even when you do not know the fact.

3 Attempt, decide, log

ENV-01 Protected areas — Type II | Est. Easy

Conservation Reserves and Community Reserves in India were introduced by:

(a) The Wild Life (Protection) Amendment Act, 2002
(b) The Wild Life (Protection) Act, 1972 as originally enacted
(c) The Biological Diversity Act, 2002
(d) The Forest (Conservation) Act, 1980

BEFORE THE KEY

Keywords circled and red flags: _____

Options eliminated and why: _____

My answer: _____ Zone: G A R ☐ Attempt ☐ Leave Time: ____ sec

AFTER THE KEY

Result: ☐ Right ☐ Wrong Main error code: K C M X H O G T

Every question card tracks your zone and your error code.

Innovation in Learning

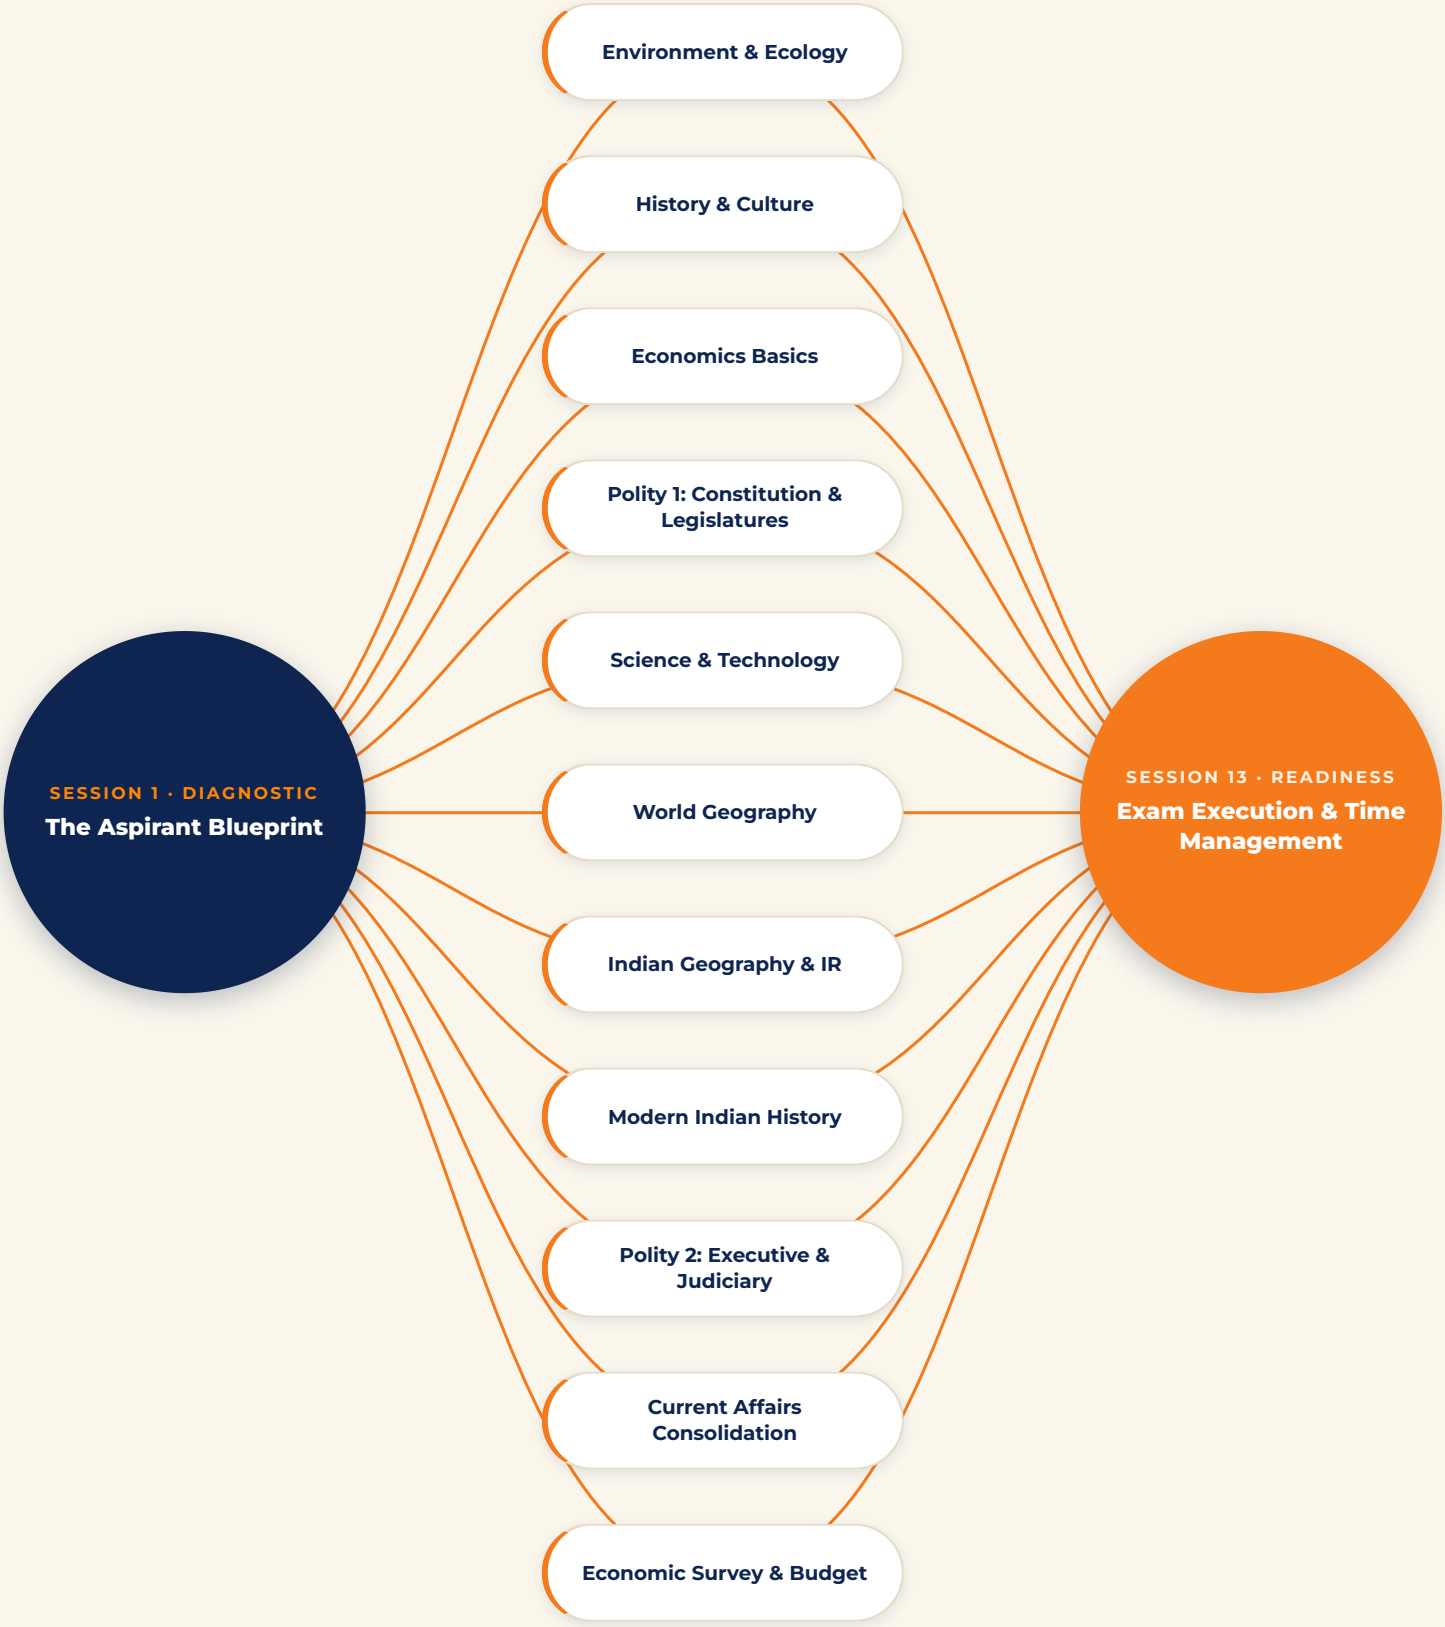

Practice questions are original and modelled on UPSC patterns.

t.me/MissionXUPSC

GENERAL STUDIES · 13 SESSIONS

The GS session map

You start with the diagnostic and end with exam readiness. In between, **take up any focus topic in the order you choose**.

CSAT · 11 SESSIONS

The CSAT session map

Three subjects, three specialists. Topics are ordered by 2022 to 2026 PYQ frequency, so the highest-yield areas come first.

C — Comprehension
Assumption, inference, tone, conclusion

Q — Quant
Number system, algebra, geometry, DI

R — Reasoning
Coding, puzzles, syllogism, data sufficiency

SPECIALIST-LED

A different subject specialist for each CSAT area. Quant, Comprehension and Reasoning are mentored by separate experts, not one generalist, so you get focused method in the exact area that is costing you marks. This is still uncommon in Prelims mentorship.

#	SESSION	FOCUS
1	Know Your Weakness	Diagnostic, self-scoring and risk profile
2	Comprehension A	Assumption, Inference, Main Idea
3	Comprehension B	Suggestion, Statement, Message, Conclusion
4	Comprehension C	Cause and Consequence, Intent, Viewpoint, Tone
5	Quant A	Number System, Algebra, Counting
6	Quant B	Geometry, Arithmetic, Speed, Ratio
7	Quant C	Progressions, Work, Averages, Data Interpretation
8	Reasoning A	Coding, Seating, Blood Relations, Clock
9	Reasoning B	Direction, Statement Puzzles, Series
10	Reasoning C	Syllogism, Cubes, Data Sufficiency
11	Total Overview	Recap, timed mixed set, personal attempt range

AFTER YOU ENROLL

What happens, step by step

The same cycle repeats before every session, from enrollment to the exam. You always know the next step.

1. Enroll & onboard
2. Diagnostic session
3. X Decode
4. Solve worksheet
5. Online session
6. Analysis card
7. Self-study & logs

What Mission X provides

- The agreed GS and CSAT mentorship sessions
- A PYQ worksheet designed for each session
- Subject decoded through X Decode
- Attempt-based feedback and next targets
- Review of your strategy, resources and progress
- Analysis document teaching you how to approach questions

What you do

- Attend each session on time
- Solve the worksheet before the session
- Keep your target, error and test logs updated
- Follow the agreed plan and self-study daily
- Bring mock scores, errors and doubts to review

Three tools that complement your mentorship program

X Decode

A document that gives evidence-based analysis of each subject, built from PYQs.

Workbook

One per subject, to systematically analyse and attempt PYQs.

Analysis Document

Decide whether to attempt or leave a question, and reach answers through logic and analysis.

WHY PRELIMS XCEED

Structured vs unstructured mentorship

The difference is the approach, not the people. Here is what a structured program gives you that an unstructured one usually does not.

	Structured (Prelims Xceed)	Unstructured mentorship
Structure	A fixed map of **13 GS and 11 CSAT** sessions, each with a distinct purpose	Open-ended calls with no set plan or sequence
Basis	Every worksheet and drill from **original UPSC PYQ**	Mostly general advice, questions vary
Preparation	You solve a **designed worksheet** before each session	Usually no set pre-work before a call
Feedback	Attempt-based, onto a **target card**	Often verbal only, little written record
CSAT	**Separate specialists** for Quant, Comprehension, Reasoning	Commonly one mentor across all areas

BEYOND THE SESSIONS

Your Prelims Xceed resource kit

Mentorship sets the strategy; these materials are what you practise and revise with between sessions. Each one is built from original UPSC PYQ.

Prelims Xceed Workbook — GS

Subject-wise previous year questions with solutions, organised to match your GS session sequence.

CSAT PYQ Workbook — CSAT

Previous year questions for Quant, Comprehension and Reasoning, sorted by topic and frequency.

CSAT Formula Revision Book — CSAT

A compact, quick-reference sheet of every formula and shortcut needed for the Quant sessions.

GS Important Recall — GS

A condensed, high-yield recall sheet for fast revision in the final weeks before the exam.

Exclusive Notes, from UPSC GS PYQ — GS

Notes built directly from patterns in actual UPSC GS PYQ.

Xplorer: Places in News — GS

A monthly "places in news" compilation, so map-based current affairs stay revision-ready.

Daily XSAT — CSAT

A daily CSAT practice drop covering Quant, Comprehension and Reasoning.

X Decode — BOTH

Evidence-based analysis of each subject from PYQs.

Xterra Weekly — GS

A weekly current affairs compilation exclusively for Environment & Ecology.

X Tech Weekly — GS

A weekly current affairs compilation exclusively for Science & Technology.

The X Amplifier — BOTH

Curated monthly current affairs content, structured exclusively for Prelims.

CSAT & GS Full-Length Mock Tests — BOTH

Two full-length mock tests each for GS and CSAT, every one followed by its own analysis and solutions.

BEFORE YOU ASK

Frequently asked questions

Q. Do I need to attend sessions in a given order?

No. Beyond the opening diagnostic and the closing exam-readiness session, you can take up any GS focus topic in any order, as per your own preference.

Q. Is this coaching, and do I need separate coaching too?

It is mentorship, not coaching, so keep your coaching or self-study for content. Prelims Xceed guides how you use them: what to study, how to practise, and how to fix mistakes.

Q. Can I continue with my existing test series?

Yes, it is designed to run alongside one. A test series measures you; Prelims Xceed helps you act on the result. Bring your mock scores and errors, and they feed straight into your feedback and target card.

Q. Should I use each session before or after a mock test?

Both. **Before** a mock, the session sets targets and sharpens what you are about to be tested on. **After** it, you bring the result back so feedback is grounded in how you performed.

Q. Is it for beginners and repeaters, and how much study is expected?

Both levels. **The first session maps your level and builds the plan around** it. Daily self-study continues as normal; the program plans and reviews it, and does not replace it.

Q. Can I take GS only, CSAT only, or both?

Any of the three. GS is Rs 7,000, CSAT is Rs 6,000, and the combined Prelims Xceed is Rs 12,000, all inclusive of GST (see the fees on the previous page).

How to Enroll

Step 1	**Message us on Telegram, or call / WhatsApp**
Step 2	**Tell us your track: GS, CSAT, or Combined**
Step 3	**We confirm your batch and share payment details directly**
Step 4	**Begin with your opening diagnostic session**

CYCLE 1 STARTS

IN THEIR OWN WORDS

What our past aspirants say

Real feedback from the Mains Xceed GS and Essay Answer Writing cohorts — shared with us straight on Telegram, candidate by candidate.

Mains Xceed · GS Essay Answer Writing Both programs

Sir, your essay program has been immensely helpful to me. In my two years of UPSC preparation, I had never written a single essay. Your program helped me break that inertia and finally get started on the journey of learning and improving. Thank you so much for this initiative, sir.

Gautam — IIT Roorkee · New Delhi — ESSAY

This program has helped me to develop clarity for the mains. Their schedule and answer writing programme has build consistency which automatically develops my confidence and strong belief for the mains. The mentors are brilliant and very responding. Love this course.

Maghan Manner — Mains Xceed · GS · Punjab — GS

The essay writing programme was really helpful and addressed my concerns effectively. It helped me identify both my strengths and weaknesses and gave me a clearer understanding of how to approach essay writing. The programme, based on PYQs, helped analyse the theme of essays in UPSC and prepare accordingly. Overall, the programme has significantly improved my approach to essay writing and helped me gain more clarity and confidence in structuring and presenting my ideas. Thank you for the valuable guidance and feedback.

Ananya Roy — Essay Answer Writing · Kerala — ESSAY

Mission X Mains Xceed programme has been a valuable part of my UPSC mains preparation. The topic wise PYQ practice has helped me develop a better understanding of the demand of the question and boosted my confidence in answer writing. The personalised feedback, voice notes and detailed evaluation are very helpful in identifying my weakness. Overall this programme is genuinely very helpful for me as it's my last attempt and I'm very happy to be a part of this initiative.

Sunanda Datta — Mains Xceed · GS · West Bengal — GS

I feel very fortunate to have joined the Mains Xceed programme, as it helped me strategize my Mains preparation in an effective, flexible and timely manner. The main highlight of this programme is the quality maintained in the daily and monthly test evaluations. The evaluator pinpointed areas for improvement in my answers, showed how to structure them better, and provided introduction-body-conclusion wise feedback. It is the first time I have truly understood where I need to focus more and what my strengths are in answer writing, rather than receiving only marks or generic feedback. Overall, the programme boosted my confidence and skill in a well-paced manner.

Amrita D — Mains Xceed · GS · Kerala — GS

Mission X UPSC was a great mentorship program for essays. The sir is very punctual and provided good insights regarding essays.

K Chandu Kishore — Essay Answer Writing · Andhra Pradesh — ESSAY

Essay writing programme is really useful, I got to know the importance of connecting words, how to come up with ideas, and general ideas about how to present a topic and cover different aspects of it. I still need to improve a lot, but the programme is really helpful. Before my SSC exam I did miss two essay writings, but still every week I try to write an essay.

Arun Chandran — Essay Answer Writing · Kerala — ESSAY

I joined Mission Xceed in June 2026, just after my first Prelims attempt. The GS4 sessions helped me develop ethical vocabulary and learn ethics through answer writing. Earlier, I struggled to address ethics questions, and essay writing felt like a difficult game. Writing two answers daily and receiving feedback within 24 hours improved my brainstorming, structuring and question understanding, boosting my confidence in GS4, Essay and other papers. Thank you, Team Mission Xceed!

Arya Hari — Mains Xceed + Essay · Kerala — GS + ESSAY

Greetings! I have been part of the Mains Xceed daily answer writing program since July 2026. The evaluation is done on time and the quality of evaluation is top notch. Earlier I couldn't understand what UPSC demands, but after joining this program, I do. The daily briefings and the mentor's voice notes are a truly unique feature. The mentor is approachable, checked on me whenever I was absent, and ensured I got back on track. Thank you for revamping my UPSC preparation. Hope everyone reaps the benefits of this program!

Hemalaxmi — Mains Xceed · GS · Tamil Nadu — GS

The program was very enriching and gave me a proper idea of how to write a GS answer. The daily answer writing sessions for almost 6 months helped me a lot. Also, the value additions given to us with each GS paper helped me understand the topic better and improve my writing.

Habel Mathew — Mains Xceed · GS · Kerala — GS

Mains Xceed by Mission X UPSC is one of the recent programmes I've attended. The strategy and pattern style of study gives vast knowledge of what is to be studied from a mains perspective. The answer writing sessions indulging the PYQs make it deeper in understanding a given topic, and the topic division helps allocate particular time and importance to each one. The mentoring sessions are fine enough to understand the faults and improve studies at a great extent. Literally, before joining the program I didn't have any idea on how to prepare for mains.

Akhila Mathew — Mains Xceed · GS · Kerala — GS

I am really happy to be part of this program. The evaluations and constructive feedback help me understand my mistakes and improve my preparation. The daily answer writing program is especially helpful in improving my answer writing skills. I am also grateful to the mentors who guide and support me throughout this journey. I truly appreciate the time and effort they put into helping me learn and grow. Thank you for making this such a valuable learning experience.

Jency Ranson — Mains Xceed · GS · Kerala — GS

The Essay Answer Writing Program has been a very useful and well-structured initiative. It provides comprehensive coverage of all major essay themes, ensuring that we are exposed to diverse topics and perspectives. It also offers proper mentorship and continuous guidance. The feedback on answers helps me identify gaps and improve content, structure, logical flow and presentation of my essays.

Megha Sankar — Essay Answer Writing · Kerala — ESSAY

I have enrolled in the Mains Xceed and the Essay Writing program with MissionX UPSC. Mains Xceed has helped me build the habit of writing answers every day, and the Sunday essay programme has helped me improve my essay writing. The mentor's detailed feedback on the answers and the thorough evaluation of the essays have helped me identify where I need to improve, how to structure my answers better, and how to write better-structured essays with a better flow and connection between ideas.

Shelja Salju — Mains Xceed + Essay · Kerala — GS + ESSAY

I joined the Mains Xceed program in July 2026, after the shattering failures of Prelims 2026. It's been more than 100 days since I started writing on a daily basis consistently. Continuous feedback helped me improve and understand where I am going wrong. I wrote one sectional test by overcoming my fear and inertia. I don't know about the outcome but surely this pocket-friendly guidance eases the difficult journey. Mentors are always a text away. Overall this experience is good :)

Anushree Goswami — Mains Xceed · GS · West Bengal — GS

Hi Arjun, had a great experience being part of the Mains Xceed answer-writing program for my UPSC Mains 2026. Your timely responses and availability in the crucial time between prelims and mains helped me immensly.

Timely evaluation of my answers and the valuable inputs provided by my mentor, Akshay, were extremely helpful.Akshay consistently highlighted my mistakes in every answer, explained how to correct them, and guided me on answer structuring, incorporating important points, and presenting them effectively across all GS papers (GS 1, 2, 3, and 4). The voice note approach helped me immensly to clearly understand the gaps in my preparation.

The Value added notes just before mains and the Ethics handbook were immensly useful, depended entirely on the case studies structure given in the handbook.

The essay-writing guidance from the mentor helped me understand how to structure my essays and maintain a smooth flow of ideas. Although I couldn't attempt every essay, his guidance in structuring essays and brainstorming tips helped build my confidence significantly.

Thank you for the entire Mains Xceed team, for your constant support and guidance. Irrespective of the final result, I am extremely grateful and happy to have been associated with this program.

Talari Keerthana — UPSC Mains 2026 Candidate · Telangana — GS + ESSAY
